## The Nichols House Antique Shop's One Year Anniversary

We are celebrating one year of offering quality antique furniture and collectibles as well as the odd bargain to our neighbors and friends. We welcome you to visit the restored 1908 home and discover how unique it is to see items of that era displayed in their original setting.

To celebrate our first successful year owners Dave Hart and Patrick Kessing are offering a 20% discount on nearly all items the month of September. This is our way of saying thank you for your support and your continued visits. The Nichols House Antique Shop next to the former Post Office in the Victorian house that used to be the Hospital Auxiliary Thrift Shop will show you a glimpse of the past and offer you great buys on cherished treasures. Open regularly Wednesday through Saturday, noon to Five and other times as well. Come on in!

## 20 Year Celebration

Lulu's on Main will be celebrating 20 years in business during the month of September. Come by & congratulate Kim and Laura on their great success!!

**Bubacz's Underground Coffee Tip:** Do not freeze your coffee. Coffee has oils in it and changes structurally with freezing and also risks freezer burn. For best coffee, store in an airtight container or a container with a one-way valve. Use within one week of grinding or, if longer, refrigerate. For more coffee tips, visit Underground Cafe under Lulu's on Main St. and at the green awning on Mill St.

**The Nichols House Antique Shop Interior Design Tip:** Manager, Dottie Hoche, suggests for bringing light and attention to a dark space in a room add polished metal via brass or silver candlesticks, lamp base, pitcher, vase, planter or anything that shines and reflects. This will perk up a dim spot and cast a reflection on your sense of style.

**Jackson County Farmers Market** will host a seed, plant and bulb exchange from 10 am-noon, Saturday, September 12. Gardeners should bring seed they have saved from their non-hybrid vegetables or flowers, or garlic and bulbs for fall planting, as well as perennial plants that need to be divided and replanted in the fall. Seeds, plants and bulbs should be labeled. In the case of flowers, it is helpful to give the color and height of the parent plant. Plants that come up year after year in your garden are proving they are well-adapted to the local climate and can thrive in spite of insect pests. These are plants we can count on for nourishment and enjoyment in the future. If you want to get seeds, plants or bulbs but don't have any to exchange, donations will be taken to support the Farmers Market.
